

Everyone has a journey even if it's Christopher Columbus discovering a new world, Dorothy exploring the land of Oz, or just a student trying to graduate from high school. Each of us has goals that we hope to accomplish on our journey through life.

Delta High School is a melting pot of teenagers and teachers with a wide range of knowledge and tradition from many diverse backgrounds. We start our journey as young teenagers riding on a bus on our way to school. Four years later we drive away with the vision of Delta High School in our rear-view mirrors, but the experiences are forever tucked away in our memories.

Our journey is a four-year trek that takes us through the range of emotions all at once. Our journey makes us climb to the peaks of mountains and descend to the bottom of valleys. Our choices show us the direction our journey will take us. Maturing both mentally and physically is part of our journey through life.

Each day in our journey we learn important lessons from those who care about us that will impact our future forever. Let's make the best of our journey because like every trip it must come to an end.
