

Driver/Extra Curricular Drug and Alcohol Testing
Student Release Form
2008-2009

Name _____ Date _____

It is understood through the Delaware Community School Corporation School Board Policy and through the Delta High School Student Handbook that any Student driver and any participant in extra-curricular activities must submit to random drug testing. The school is encouraged by the Witham Health Services and Mid-West Toxicology Services to have parental permission waivers signed by the parents of each eligible student before drug testing occurs.

This release form is valid for the 2008-2009 school year. Once granted, the permission is valid for the entire school year.

Furthermore, I have been informed and fully understand that by signing this authorization, I agree to forever release and hold harmless Midwest Health Strategies, its officers, employees, and agents from any liability, claims, or other recourse as a result of the laboratory test and the release of the laboratory testing results.

My child has my permission to be drug tested to be eligible to participate in the extra-curricular program at Delta High School and/or to drive to Delta High School, and Midwest Health Strategies and Delta High School are authorized to perform the test on my child.
